WATCHES.

## WALTHAM Watches!

THE extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen-the most exacting of watch-wearers-has thoroughly demonstrate the streygth, steadiness, durability and aconracy of the Waltham Watck. To salisfy that class in all these respects, is to decide the que tion as to the real value of these time-keep More than 400,000 of these watches are now speaking for themselves in the pockets of the people-a proof and a guarantee of their supe-riority over all others.

The superior erganization and great extent of the Company's Works at Waltham, enable them to produce the watches at a price which renders compelition fullie, and those who out on watch, merely pay from 25 to 50 per life, with the following coats that thock Tarsdays, Fridays and Sun-We are now selling Waltham Watches at less renders competition futile, and those who buy K a ni.

can be said.

ginating in this country, or in Europe, only shose were finally adopted which severe testing by the most skillful ardsans in our works, and ong use on the part of the public, demonstrates to be essential to correct and enduring time

Among the many improvements we would particularize: The invention and use of a center-pinion of ecultar construction, to prevent damage the train by the breakage of main springs, is original with the American Watch Company, who having had the refusal of all other con trivances, adopted Fogg's Patent Pinion as be-lng the best and faultiess.

Root Hames horse and mule;
Planters' Hoss, cast-steel, all sizes;

Hardened and tempered hair-aprings, now Shovels and Spades, Rowlands's and Ames'; niversally admitted by Watchmakers to be the best, are used in all grades of Waitham | Axes Hunt's, Simmonds', Mann's and Lip pincott's, Patent and plain; Watches. All Waltham Watches have dust-proof caps, rotecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or legies watch, is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To prevent imposition, buyers should invariably demand a cert fleate of genuineness. No watches retailed by the company. For further facts and information, address

\$3 50. Small Common, in 5 bushel bar-The New York Commercial Bulletin, rels. 2 50 to \$2 75. These are quotations There is a moderate jobbing trade doold and new, have declined since that ing in manufactured Tobaccos and prices are steady. The demand for low WHISKIES re-

weak. Highwines 90c per gallon.

The Columbia deraid, of Maury county in this State says; "Farmers from all parts of the county are highly elated at the wheat prospects. They say the crop so far promises to be the finest raised in Maury county for a great many years. It has met with no damaging accident so far, and we hope its future history will be like its past. Corn is up, and looking well, considering the unfavorable state of the weather during the past two weeks. The corn crop has cassed to be

able condition. Cotton is decidedly opposed to cold rains and damp days." lateners of the season, the plants ob-tained a vigorous growth before cold weather set in. This saved the crop
